The weekly meeting of the Medina County Fair Committee was held last Monday night.
Miss Jessie Blocker is visiting her mother, American Consul William Blocker, and family at Eagle Pass this week.

Mrs. Louis Ernest and son, Clarence, of D'Hanis were guests of Mrs. Reynolds and family a couple of days this week.
Mrs. H. J. Meyer and Master Hugh and Baby Mary Elizabeth were the guests of Dr. and Mrs. R. P. Thomas at San Antonio Tuesday.

Miss Isabel Schneider and Miss Edna Busch came out from San Antonio and spent Sunday with Mrs. E. S. Schneider and family.

Mrs. Edgar Reinhart and little son, Edna Paul, are here from San Antonio, the guests of Mrs. Reinhart's mother, Mrs. E. S. Schneider.

Wm. Collins, the concrete man, was here from D'Hanis Thursday on business. While here Mr. Collins paid this a pleasant call. He informed that work in his line is plentiful.

Attention is called to the announcement of Mr. John B. Ney as a candidate for re-election to the office of County Commissioner from Precinct No. 3, D'Hanis, which will be found in the proper column.

The annual election of officers of Hondo City Lodge No. 756, A. F. and M., will take place at the regular meeting at the hall next Monday night. All Masons in good standing are invited to attend.

Mrs. Louis Scherrer and daughter, Florence, were here Thursday from Castroville. They were accompanied home by Misses Anne and Mary Davis, who will spend the remainder of the week visiting them.

LOST—30 or 40 head of goats, marked swallow fork in each ear of horns, and mark in muttons swallow fork one ear. Older goats may have various marks, swallow fork predominating. May have strayed from my ranch on Medina Lake. Anyone knowing whereabouts of these goats please notify me at Castroville. C. L. Farrer.

Mr. and Mrs. Henry Moore and Miss Bessie Wheeler of Yancey were passengers to San Antonio Wednesday morning.
Mr. and Mrs. Frank H. Schweers and Mr. and Mrs. J. E. Murray have gone to Kerrville on a few days' fishing and outing trip.

Mr. Charlie Powers, salesman for Burnham and Fehr, Barbers' Supplies, Austin, Texas, was in Hondo Tuesday and Wednesday of this week.
Mrs. A. G. Lamm, returning to her home in San Antonio following a visit to D'Hanis, stopped over here Wednesday on a visit to Mrs. Rob. Reynolds.

Marion Davis writes home that he is making progress at the Linotype School and while very busy and having to work hard, is highly pleased with the school.

The quietude of local politics is broken this week for the first time this election year by the announcement of Mr. Frank H. Schweers for Commissioner of Precinct No. 1, Hondo. Mr. Schweers is a Medina county man, born and reared here among the people he seeks to serve. See his announcement under the proper heading in this week's paper.

The stage is all set for the opening of Hondo's Summer School next Monday. This school is designed primarily for a review of the first and second grade branches and will lead up to and close with the regular county examinations in July. If you are a teacher, or expect to teach, this is an opportunity to receive careful, personal instruction from capable, sympathetic men. Do not miss it. Arrange at once to attend.

Rev. S. C. Swinney of the Hondo Baptist Church and Dr. Geo. S. Kinnard of Sabinal exchanged pulpits last Sunday at the eleven o'clock service. Dr. Kinnard selected as his text and the subject of his discourse just four words—"Have Faith in God"—and preached as pretty, convincing and logical a sermon as one ever hears from the pulpit. After the sermon there was one addition to the church received by vote of the membership.

In a published list of the graduates of Georgetown University, we note the names of the following: Henry Benjamin Hardt of Hondo, who takes both his Bachelor of Arts and his Master of Arts degrees, and Horace Morgan King of Hondo, who also secures a Bachelor of Arts degree. The paper congratulates both of these young men and wishes them success in life. We understand both boys will enter the ministry of the Methodist Church.

In the course of a business letter to this office, Mr. Fritz J. Rothe writes from D'Hanis: "This part of Medina County is in fine shape. Grass is as good as I have ever seen it, and cattle are doing fine. It seems that the dipping of cattle every 18 days to eradicate the fever ticks is not only getting rid of the ticks, but otherwise; the cattle are in much better condition than I have ever seen them and according to my opinion it must be the dipping that helps them. Crops are very promising, and if we get a wet season during the month of June, there will be a large corn and feed crop made. The month of June in this county is the month in which crops need the most moisture for maturing. Like to read the Herald. It is the best paper we have in the county."

Rain is becoming such a common occurrence in this semi-arid country that it no longer causes comment. Late Monday afternoon, almost without warning, a shower amounting to .40 of an inch fell in Hondo, while south of town a precipitation totaling some two inches fell. This rain was accompanied by considerable wind in some sections, a miniature cyclone striking one of the Odem farms south of town, and doing some damage. One rent house and some sheds were demolished but no one was hurt. The Mexican tenant, however, suffered the loss of a considerable quantity of lard when the house was destroyed. Some trees in the track of the storm were also uprooted. Tuesday night another rain, somewhat lighter than that of the previous day, also fell, the greater fall again being in the south and east of town. Things now look as though "hog and hominy" will be bounteous menu of our people for another year.

HONDO'S WINNING STREAK HALTED.

After winning three straight games, Hondo's march to the top was temporarily halted by the fast Grayburg Oilers here on Decoration Day.

The biggest crowd of the year turned out to witness the game and all went home satisfied that they had seen one of the best games ever played on the local diamond.

Eddie Mueller for Hondo and Dresch for Grayburg hooked up in a real pitchers' battle and although Eddie lost, he covered himself with glory by pitching one of the best games of his career. Allowing a team only 4 hits and striking out 17 men will win almost any game, but it just wasn't Hondo's day, and no matter how we tried, we never could get started, and Eddie's and the team's fine efforts resulted in defeat.

However, the boys are far from discouraged. This was the first real game they have had this year and as a result, they feel better qualified to meet the stronger teams that are coming in the future.

The only thing now lacking is the punch, and with a little more daily practice, every man on the team ought to be hitting at a fast stride. The late start has somewhat handicapped a few of the boys, but lots of practice will overcome that. Watch their smoke from now on!

MISS BROWN GIVES RECITAL.

One of the prettiest recitals ever staged in Hondo was given at the Hondo Auditorium last Saturday evening when Miss Ethel H. Brown presented her music pupils in a piano and voice recital.

Each member, from the tiniest tot to the most finished musical student, was well presented and the performers acquitted themselves creditably. It was clearly demonstrated that there is a great deal of musical talent among the young ladies of Hondo.

A pleasing feature of the recital and one that lent variety to the program was the presence of some of Miss Brown's Sabinal and Utopia pupils. The singing of the Sabinal Male Quartette is worthy of special commendation, and causes one to stop and ponder why we haven't such talent among the young men of Hondo.

The recital was given under the auspices of the Hondo Parent-Teacher Association, and Miss Brown, and her pupils were entertained at the home of Mrs. F. S. Cockrell with light refreshments after the recital.

TO THE PUBLIC.

A grand Basket Picnic will be given under the auspices of the German-American Sunday School of the Methodist Church, South, Yancey, Texas, on the 8th of June, 1922, at the German M. E. Church.

An elaborate program has been arranged, consisting of songs, dialogues and speeches. The exercises will begin at 10:30 a. m. and continue till noon.

The afternoon will be a continuation of merriment for both young and old. A bounteous supply of refreshments will be available during the day. The proceeds will go to the Sunday School.

Come with a well filled basket and meet your friends.

DECORATE GRAVES OF VETERANS.

Mrs. T. McClougherty, president of the Ladies' Cemetery Association, assisted by a committee of young ladies, and a committee of young men from the Hal Jones Post of the American Legion, observed Memorial Day Tuesday in a most befitting manner by repairing to the cemetery and decorating the graves of departed veterans.

An effort was made to include graves of all former soldiers and any were omitted it was because graves are unknown, and the omission will not occur in future if properly brought to the attention of local post.

Following is a list of the graves whose resting places were thus decorated:

Civil War Veterans

The colored school of this place closed Thursday night of last week with graduating exercises at the colored Methodist church. There were two graduates, the first in the history of the colored school of Hondo.

Louis Guea was up from the lower Hondo the latter part of last week and was a visitor to this office. He reports considerable damage to his corn by the recent high winds.

Professor and Mrs. O. W. Peters and baby are here from Karnes City. Prof. Peters will be one of the instructors in the normal which will open here Monday, June 5th.

Mrs. H. P. Butler and children of San Antonio, after a several days' visit to Mr. and Mrs. Fred Butler, returned home on Friday evening's train.

Miss Velma Bohlen entertained her friend, Miss Lucy Schuehle, with an ice cream supper Saturday night at the home of her parents, Mr. and Mrs. Hy. Bohlen.

Miss Velma Bohlen is staying with Mrs. Ernest Boehle this week.

Superintendent J. D. Howell of the Hondo Public Schools leaves today for a few days' visit to his old home in Gonzales county. From there he will go to Austin for the opening of the summer school and will attend both the first and second sessions of that school.

Uvalde, Texas, June 1.—Frank Harris of Cometa, Zavala county, and a member of the House of Representatives some years ago, has filed his name with County Chairman T. M. Milam of Uvalde as a candidate for State Representative of this district. This makes three candidates in the field, A. J. Durham, Grover C. Morris and F. J. Harris. Mr. Morris of Devine, Medina county, is the present incumbent.

County Superintendent W. N. Saathoff attended the commencement exercises of the Cliff School last week and reports it one of the swiftest affairs ever conducted in the county. The good people of Cliff never half way do anything, and for the night part of the program had installed a Delco plant and turned night into day, and a most enjoyable evening was spent by both the students and visitors.

Mrs. Fritz Frerichs and Mr. and Mrs. Henry Frerichs are in Kerrville at the bedside of Mr. Fritz Frerichs, who is in a sanitarium there. He has not improved lately as his friends hoped he would. Miss Annie Reilly and Mrs. F. S. Cockrell entertained at the latter's home for their piano classes Monday afternoon. The pupils performed very creditably in duets and solos, and Miss Evelyn Finger accompanied Miss Reilly in a solo and Miss Rhoda Mae Taylor accompanied Mrs. Cockrell. The pupils were: Misses Hedwig Leinweber, Lois and Lillian Ulbrich, Evelyn Finger, Rhoda Mae Taylor, Roberta Hudspeth and Master Woods Cameron. Ice tea and cakes with flower favors were served to the class and Mesdames Reilly, Finger, Hudspeth, Shutekey, Leinweber and Misses Gertrude Reilly and Rothe.

"FORTY-TWO" CLUB.

Mesdames Felix Batot, Fletcher Davis and Charles Finger were hostesses to the Ladies' "42" Club at the American Legion Hall last Thursday afternoon from four to six.

Progressive "42" was the evening's diversion. After the games, refreshments of cherry ice cream and cake were served at Hutzler's Confectionery to the following ladies: Mesdames L. J. CLASS WILL.

Town of Hondo,
State of Considerable Excitement.

Know all men by these presents: That we, the Class of 1922, fully realizing the uncertainties of the future, and that we are now about to dissolve our fraternal existence as a Class, and depart to our various walks in life, but fully mindful of the vicissitudes through which we have passed, and with memory and understanding sufficient that in departing from the sacred precincts of our past school surroundings, we should, and hereby do make a testamentary statement of our affairs. Therefore, we do hereby make, publish and write this, our last Will and Testament, hereby revoking all other spoken or written Wills, by us, at any time heretofore made:

First: We wish hereby to give thanks and gratitude to our unseen Providence that has guided us through the past troublesome eleven grades at school, and now, closing presents us to the public, as being qualified to make this our Will. We are well aware that, unless such an unseen Providence had directed our efforts, those frightful ghosts of Exams, that have robbed us of our much-needed amusements, would be sufficient to break down our health and our great intellects, but supremely saved, we feel grateful and thankful.

Second: To the Board of Trustees, we heartily give and bequeath long life, health, and such happiness and emoluments that can be derived from their official position. We bequeath to them, our many thanks for providing for our High School, with all necessary equipment and an able faculty to direct our mental training during our scholastic years.

Third: To the Faculty, we give and bequeath restful nights and happy dreams of the future that should come true, and in making this bequest we hereby express our great and profound gratitude for all the trouble and labor they have expended mentally and otherwise, in making us qualified to receive our prized Diplomas.

Fourth: To the Juniors, we give and bequeath empty desks, including all marks and disfigurements thereon, to have and to hold the same for one year at least. Also our grandeur, uprightness and superiority, as Seniors. Also any left-over pencils, powder rags, love notes, etc., they to share equally all things. We also bequeath the usual tradition of the Senior Class, the most sacred of which is the Motto: "Get by with it, by all means."

Fifth: To Tony Windrow, we leave the ability of Henry Windrow to play Tennis, and trust he may profit thereby.

Sixth: We Will and Bequeath to Will Earnest Newton, the wonderful independent airs of Henry Windrow.

Seventh: To Will Earnest Newton, we Bequeath the share of Evelyn Wilson in her successful Debating career, and trust he will prove equal to the trust.

Eighth: To Marion Davis, we Will the program of Evelyn Wilson for the gain-weight receipt, and hope it will be beneficial to him.

Ninth: To Tony Windrow, we also Bequeath the art of kicking field goals, heretofore possessed by Earl Lacy.

Tenth: To Charles Brucks, we Bequeath Earl Lacy's curling irons, with which he obtained his beautiful waves.

Eleventh: To Frances Neuman, we Bequeath Mrs. Althea Mills Kimball's bobbed off hair, and trust that in time the length thereof will be great.

Twelfth: To Donnie Mills, we Bequeath the good goal-pitching of Mrs. Althea Kimball.

Thirteenth: To Dee Holly we Bequeath the great knowledge of Ina King, and trust he will profit thereby.

Fourteenth: To Albert Hutzler, we Bequeath the pretty freckles of Ina King, that he may become more handsome.

Fifteenth: To Albert Hutzler, we also Bequeath the genius of Loraine Heath, in debating, and trust that he will keep the record good.

Sixteenth: To Clara Filleman, we Bequeath the wonderful power of Loraine Heath to attract members of the opposite sex—which we know she will preserve.

Seventeenth: To Lucille Hollaway, we Bequeath the great skill of Elizabeth Fly, as Editor-in-chief, and manager of the Huajillo Leaf, and that the Leaf will flourish under her magic pen.

Eighteenth: To Lorene Merriman, we Bequeath the silvery locks of Elizabeth Fly, that she may be embellished thereby.

Nineteenth: To Eula Cozart, we Bequeath Clara Buss' powder puff, that her features may always be smooth.

(1) Ina King; (2) Elizabeth Fly; (3) Loraine Heath; (4) Jessie Blocker; (5) Henry Windrow; (6) Clara Buss; (7) Earl Lacy; (8) Evelyn Wilson; (9) Althea Mills Kimball; (10) V. H. Blocker Jr.

Twentieth: To Fatty Saathoff, we Bequeath the bird laugh of Clara Buss, that he may charm some pair by his singularity.

Twenty-first: To Lottie Hollaway, we Bequeath the nerve of Jessie Blocker as goal pitcher.

Twenty-second: To Will Earnest Newton, we also Bequeath the great height of Jessie Blocker, that his stature may increase.

Twenty-third: To Oscar Filleman, we Bequeath the great power exercised by V. H. Blocker Jr. in the football games, and trust that he will make a good bucker.

Twenty-fourth: To Bennie Bradley, we Bequeath the vamping smile of V. H. Blocker Jr., that his presence may at all times be known and felt.

Twenty-fifth and Final: To all friends, schoolmates, Faculty, Board of Trustees, and to all here assembled on this great occasion in our lives, we Bequeath a fond and regretful farewell, with our best wishes for their future happiness and prosperity.

As the Class of 1922 now passes out of existence, may we hope that we will have a small share of your memory. And may time never efface from memory's tablets the pleasure and labor we have experienced while making our final debut as graduates of the Hondo High School.

CLASS PROPHECY.

As the years hasten on in their flight,
And turn our dark locks to white,
We are curious to know
What Fate has in store
For all of us Seniors tonight.

First, Henry:
I hope your dreams shall silently curl
Into vivid pictures of this world.
As this you smoke in dreamy joy,
In memory of the days when
You were a boy.
Gift, Cob-pipe.

Second, Evelyn:
With this increase your vocabulary,
my dear,
So you may handle HIM with less
fear;
The job is touchéous, of course,
But then your words will possess
more force.
Gift, Dictionary.

Third, Clara:
Tweezers, my dear—just pull 'em out,
Why, you could turn a crowd into
a rout
If you but make use of these.
Pull your eyebrows and just sneeze.
Gift, Tweezers.

Fourth, Elizabeth:
Watch with whom your lips doth
meet;
Your life depends upon such a feat.
You'll know no Epicurean blisses;
You'll live on bread and cheese and
kisses.
Gift, Kisses.

Fifth, Earl:
Whip him hard, my boy, it won't be
luck;
That frisky horse will never buck.
The whip just most effectively apply,
Then you won't be lying on the
ground and asking why.
Gift, Horse.

Sixth, Jessie:
I've heard you say you wanted curls,
Then just use these, my girl;
If to beauty you want the binding
link,
Roll your hair and get the proper
kink.
Gift, Kid curlers.

Seventh, Ina:
For heaven's sake, with this please
sharpen up your wits,
Or old age will run you into fits.
For one who "flunks"—this she will
need,
To give her knowledge—yes indeed.
Gift, Finger-nail file.

Eighth, Althea:
With this you'll be a splendid cook
And happy on your married life
you'll look,
For often I have heard it said
From uncooked food husbands have
been found dead.
Gift, Cook Book.

Ninth V. H.:
Unless you stop your solemn ways
And take to giggling and chaffing,
Some day something will tickle you,
Until you die a-laughing.
Gift, Funny page.

If Fortune our verses will deign
To follow, then mankind will gain
In wisdom, faith, beauty
And devotion to duty,
And none shall have lived in vain.

CLASS HISTORY.

As a member of the Senior Class of nineteen hundred and twenty-two, it is my honor and pleasure to give you a short history of our High School career.

In 1919 we entered High School, Juniors. Loraine, Henry and Evelyn were the one great thing that we had always been looking forward to and now passed achievements seemed small indeed in contrast with our future hopes. Even though Freshmen are always teased and tormented, we were willing to take our medicine.

Organizations began early, and as our class was most important, of course it came first. Loraine Heath was elected president, Marion Davis secretary-treasurer. Both the boys and girls thought themselves very important, for quite a number of them were on the second basketball team, while the boys helped to make the football season a success.

And now, as our year in High School had terminated, we realized that one step toward that honored position, as a senior, had been taken.

In September, 1920, we again entered Hondo High, as Sophomores, and though our number had decreased from twenty-seven to fourteen, we went into our work with renewed energy, for our good intention had not been hampered in the least. Of course, we took our grudge out on the poor "fish," just the same as had been given us. But we soon put aside all foolishness, and real work began. Henry Muennink was elected class president, and Ina King secretary-treasurer. Again our class was well represented in athletics by our boys and girls, both in football and basketball.

After a year of hard work, intermingled with social events, school came to a close, thus ending two years of our High School life.

We grew tired of the name "fish" and "sophs," so at the close of the year we were more than pleased to find ourselves to be Juniors on the following year. We had just now begun to feel our importance, but of course this was only natural.

As usual we organized our class, electing Elizabeth Fly president and Evelyn Wilson secretary-treasurer. There were only nine of the old "bunch" left, but these few put forth every effort to make the year a success. What would the football team of 1921 have been without the wonderful help of V. H., Earl and Henry? And what could basketball have

amounted to without Jessie? We don't like to think of what might have happened! The school was well represented at the County Meet of 1921 by Loraine Heath, Evelyn Wilson, Ina King, Elizabeth Fly, V. H., Earl and Henry, all of whom were again represented H. H. S. at the District Meet.

The social events of the year will long be pleasant memories to us, and especially the reception given to us by the Seniors.

In September, 1921, the old class of 1919 returned to complete the last year of High School. Ina King was made president, Henry Windrow vice-president and Clara Buss secretary-treasurer. Perhaps the greatest interest of this year has been found in the third edition of the "Huajillo Leaf."

The three Senior boys were star players on the championship football team of '22, while four Senior girls did their part on the basketball team of which Jessie Blocker was captain. The County Meet of 1922 was well represented by both boys and girls of the Senior class in almost every event.

I know that the Seniors have enjoyed the good times spent together, and now, after eleven years of work, pleasure and friendships, the time has come when we must part as schoolmates, never again to be reunited in the classrooms, and though this be done in tears, we can look back over our past history and smile.

Me'n You and You'n Me
When there's days and days
And maybe weeks
That pass without a letter,
And that funny lonesome feeling
That you get
Don't get no better;
When you think there ain't
A soul on earth
That feels as bad as you,
Just come and shake
My hand because
I'm every bit as blue.

A Thoughtful Pupil
From the Edinburgh Scotsman:
Jimmy giggled when the teacher
read the story of the man who swam
across the Tiber three times before
breakfast.

"You do not doubt that a trained swimmer could do that, do you?" he was asked.

"No, sir," answered Jimmy, "but I wonder why he didn't make it four—and get back to the side where his clothes were."—Exchange.

WHAT VOCATION IN LIFE WILL YOU CHOOSE?

Sometimes because you have made a choice of your vocation in life, you have regretted the fact, and, then, gone on the remainder of your life without learning a trade. Many times you have worried because your financial condition is the best, and thought that if you had learned a trade, you would be much happier and money would not be so hard to obtain. You have said again and again that the young people of today should choose some trade early in life, and this is indeed true.

And, students, make your choice of a vocation now; don't put until you have spent the best of your life in doing other things for often the chance will not come for you to learn the vocation.

Have you ever thought that there would be fewer men without work if everyone knew how to do some kind of work? Have you ever thought that the number of good citizens would be great? I am sure you wish to be something in the world; then learn some vocation, and make your choice a wise one.

Some may think that they haven't the money to go to school and learn a trade, but just remember that some of the best educated men in the world were once poor, and were compelled to work to obtain an education. They had a desire to do and be something, and if you had as much ambition as they you would be quite as successful in life. Let us all decide to make a success in the business world, and exert all of our efforts toward doing so.

Monday—Got up too late; ate too much breakfast; got to school too late; didn't know my lessons any too good.

Tuesday—Spilt ink on a girl's new dress in front of me; got sent to Prof. Had a fuss with my teacher, and got awful mad.

Wednesday—Went out and got some jelly beans; brought them to school and teacher got 'em; my girl lost her ring and I found it, and got a kiss in return.

Thursday—Broke a window pane and worked a whole hour to pay for it; slipped on a banana peeling and hurt my sore toe. Ma made me go to bed at six o'clock.

Friday (morning)—Went to sleep in study hall, fell out my seat and bumped my head. Found a girl's powder puff.

Friday (evening)—Played hookey; went to the creek and went in swimmin'; got a beatin' up from Dad. Didn't get any supper from Ma.

Saturday—Cleaned up back yard. Slipped off huntin' and got a spankin' with a slipper. Climbed telephone pole and fell; broke my ankle.

Sunday—Stayed in bed all day, eatin' good stuff, and gettin' petted by Dad and Ma. Got a bouquet of daisies from my girl. Don't have to go to school next week. Whoopee! La!! La!!

KNOWLEDGE THE LIGHT OF THE WORLD.

III.

The groves were God's first temples, ere man learned To hew the shaft, and lay the architrave, And spread the roof above them—ere he framed The lofty vault, to gather and roll back The sound of anthem; in the darkling wood, Amid the cool and silence, he knelt down, And offered to the Mightiest solemn thanks And supplication.

—William Cullen Bryant.

And yet how have these first comers to these holy sanctuaries of America forgotten the worthy example of their primitive savage ancestors and reverted to the habits of their still more primitive companions, the wild beasts of the forests which neither care for the welfare of later comers nor even the future well-being of their own descendants? Be it remembered that those early pioneers were only too often possessed with the selfish desire to seize the resources of nature for their own immediate needs without the slightest sense of responsibility to those who should come later. I will merely point out the chief abuses of our natural resources by our pioneer forefathers and later hope to be able to suggest a few constructive measures by which those later exploiters may be dispossessed of the public wealth and the same restored to its rightful owners, the social group.

The principal uses of the forests may be summed up as follows:

1. The atmosphere is purified and its elements more nearly equalized as between plants and animals by the action of the foliage of the trees, since they inhale the exhalations of man and animal, while man and animal inhale the exhalations of the forests. Thus extensive forest areas in the vicinity of our great cities are great conservators of health. They are proper homes for the useful wild life so beneficial to our field and forest culture, the birds and bees and other insects beneficial to man. What pleasure grounds for young and old to resort to for fresh air, healthful recreation, and serious meditation when the city hangs like a pall over our spirit.

2. The forests are the surest preventives of floods, by holding back the waters during periods of excessive rainfall, or when the snows begin to melt with the first warm days of spring. The roots of the trees, the mould of the leaves, and the last year's leaves all serve to hold back these waters and store them up to be given back later through the flow of springs and streams, and to be drawn out of the wells for man's immediate use. The rich soil is thus made and enriched for man's future use, when old lands have been planted to young trees and these in their turn are grown into forests.

3. By far the most important use of forests to man is to furnish him a constant supply of wood and timber for fuel and shelter. Through these means first of all has civilization been able to advance. The characteristic difference between man and other animals is that other animals are transformed by their environment, while man transforms his environment. Then since man is civilized chiefly by the use of fire and timber, his continued progress or actual survival depends upon the preservation and perpetuation of an adequate forest area of trees suitable for timber and fuel.

The chief abuses of the forests may be summed up as follows:

1. The ruthless, careless and unnecessary destruction of forest areas which are unsuited for cultivation has already gone to great lengths in the East and is receiving only slight checks in the west. Of course it is wise economically to use our richest forest lands for agricultural purposes, but there should be as much utilization of this timber as possible and as little waste as circumstances of time and place will permit. The same might be said of the ruthless waste and often complete extermination of our game and birds useful to man as food and as pest and insect destroyers.

2. The removal of forests from the headwaters of our streams and rivers suffers the run-off to sweep down valley and ravine so rapidly as to cause overflows in the fertile valleys below, which are not only destructive to man and beast, but often to growing crops, and to the permanent injury of the agricultural lands. Even on the up lands the soil is often swept away and great gullies washed out by this excessive, too rapid flow of rain and melting snow. Soil erosion is one of the very greatest abuses from a too careless destruction of forests from lands suited for forests alone.

3. Probably the most unjustified abuse of the forests is the unscientific, uneconomic, wasteful methods exercised in the lumber industry. The complete destruction of all young

Colds & Headache

"For years we have used Black-Draught in our family, and I have never found any medicine that could take its place," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

THEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for a cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved us many dollars... I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to keep in the house. I recommend Black-Draught highly and am never without it."

What is Chiropractic?

IT IS NOT MEDICINE—NOT SURGERY—NOT OSTEOPATHY

It is a scientific method of adjusting the CAUSE of disease without drugs or instruments, based on a correct knowledge of anatomy, and especially the nervous system. The CHIROPRACTIC idea is that the CAUSE of disease is in the person afflicted, and the adjustment in correcting the wrong that is producing it. The function of every organ in the body is controlled by MENTAL IMPULSES from the brain, which it transmits thru the nerves. Any impingement of these nerves interfering with the transmission of MENTAL IMPULSES results in an abnormal function, called disease. This interference is produced by subluxated vertebrae pressing upon nerves as they pass out from the spinal cord. The Chiropractor is able to locate the point of obstruction or interference and, by means of adjusting the subluxated vertebrae, corrects the CAUSE, and HEALTH is the result.

Owing to Dr. Schlottmann's inability to vacate his place, I will not be able to locate here before

BEFORE.

From the Devine News of May 4 we quote the following excerpts:

"The Devine precinct has spent several thousand dollars straightening out the road from Devine to the McAnelly bridge on the Hondo, for the benefit of travel from the Yancey country and north, via Devine, and on towards the east, with the understanding that the road west of Hondo would be straightened out and improved. So far, we understand that nothing has been done west of the Hondo, and we have even heard it recently whispered that nothing will be done. The Hondo people got busy when the people began clamoring for a good road to Devine, and built a splendid road from Hondo to Yancey; but we do not find that willingness to be fair that one might expect, in fixing this stretch of the cross-country road that ought to be improved, regardless of whether trade will go to Hondo or Devine. * * * True, this piece of road is not in the Hondo precinct, but it is believed that Hondo interests are not encouraging it being opened. Now, good folks, let's play the game fair."

Startling under the Anvil Herald's gentle chiding for listening to "whisperings" and basing grave and general charges of wrongdoing by a whole community thereon, and again referring to the same matter, and discussing the Anvil Herald's denial that Hondo had either built any road or blocked the building of any, the News said further:

"That the article in regard to fixing the Yancey road beyond the river was hitting close to the 'bull's eye' is evident by the comeback of the esteemed Anvil Herald, who issued a disclaimer for the Hondo people in having anything to do with it. We have been assured both before and since the appearance of the article that the County Judge and one Commissioner lives in Hondo, and that the good Commissioner of the D'Hanis precinct only lives seven miles away, and while 'Hondo' and the 'Commissioners Court' are not identical, yet the 'Commissioners Court' and the county road committee and its advisors are no doubt largely influenced by the wishes of Hondo. By Hondo, we do not mean the women and children of Hondo, nor perhaps a majority of the Hondo people, but the influential men of Hondo, who make county sentiment and largely control the county's policies in road making and other things. * * * The Anvil Herald may not know that when Devine advertised a meeting with the Yancey people, when they were asking for a road to Devine, that a large delegation of 'Hondo' people went down to Yancey, even before Devine delegation got there, and made some promises to Yancey regarding the Hondo-Yancey road, taking with them the Commissioner of the D'Hanis precinct."

Called to task by the Anvil Herald for thus shifting its charge of "unfairness" from "Hondo," where it first placed it, and challenged to name the "influential men of Hondo," whom it then accused of having been guilty of being "unfair," and whom we hasten to assure our contemporary that the Anvil Herald had no intention of or desire to be unfair to it or anyone else. On the contrary, it was our sense of fairness, and a realization that the News had failed to accord Hondo that fairness it seems to so highly prize when itself is concerned, that we noticed its charges in the first place. And it was a realization that in trying to stand from under the onus of its "bust," the News made the still more seriously unfair accusation against "certain influential citizens of Hondo," "Yancey" and the "good commissioner of D'Hanis, who lives only seven miles away," that we attempted for a second time to set it right. If as a consequence of our friendly offices the News feels itself aggrieved, it must lay the blame for its suffering to its well known propensity for "listening to 'whisperings,' jumping at unjust conclusions therefrom, and forgetting the feelings of others in its comments."

Instead of the Anvil Herald "creating" any impression that the News had hurled some "vile accusations," etc., we were merely translating the News' own language and attitude into what could be its only reasonable interpretation. If the News can not express itself so as to be understood, it should strive to weigh its words with more circumspection before speaking where to speak is to accuse innocent people of an unwillingness to be fair, to act honest and right with their fellow men.

As we interpret the News' latest effort quoted above, in the light of what has gone before, the News' explanation is that it heard some "whisperings" (that it shouldn't have listened to); it thought out loud that somebody had done something shady (when it ought not to have thought such things); it accused somebody (it doesn't particularly know who, or desire to tell) of being the guilty parties; but it doesn't particularly matter anyway if they were guilty, for Devine folks rather pride themselves in having done the same things (in connection with the Biry Bridge) and San Antonio does it too; but when the Anvil Herald calls attention to the fact that in doing thus the News has been grossly unfair and unjust to a large number of people, who had no part in something that never happened, anyway, the Anvil Herald has not been fair to the News—the poor, injured innocent.

AFTER.

it accused of making such "promises" to Yancey as would defeat the building of a road in which Yancey was vitally concerned, and challenged to give as well the particulars of this unfairness, the News responds in the following admirable (?) manner:

"The Hondo Anvil Herald devoted nearly a column and a half of its valuable space last week to a continued discussion of the Devine-Yancey and the Hondo-Yancey roads; and but for some wrong impressions which the Anvil Herald makes we would not care to discuss the matter further, as everybody concerned, either at Devine, Yancey or Hondo, knows just how it is, and what the papers say will make no difference. The Anvil Herald says it did not receive the issue of the News in which our last reference was made to the matter, and insinuates that we 'forgot' to mail him a paper. We assure our esteemed contemporary, however, that the paper was mailed as usual in the Hondo bundle, and we have no idea why it was not delivered."

"The Anvil Herald creates the impression that we have hurled some vile accusations of 'improper motives' and 'shady transactions' against the people of Hondo, or an 'unfair and dishonest deal with Yancey' in getting the good road from Yancey to Hondo, when the strongest thing the News said was, 'We do not find that willingness to be fair that one might expect in fixing this stretch of the cross-country road' and 'it is believed that Hondo interests are not encouraging it being opened.' We spoke of Devine holding back the building of a bridge at Talley Burnett crossing, because it was of no commercial interest to Devine. The Anvil Herald is not so innocent in knowledge of manipulations of commercial clubs and Chambers of Commerce in building some roads, leaving others untouched where they are not interested. San Antonio has built roads from every direction, sending men far beyond the county lines to urge bond issues and boost roads leading towards that city. The News has thrown no mud in this matter, and only requests that since the Anvil Herald has created the impression that the Devine News has made accusations of 'shady transactions,' 'improper motives' and with making 'unfair and dishonest deals with Yancey,' that it publish this item, which is short, that all who read that paper may know just what we said. Hondo, or Devine has a just right to not only go to other precincts, but even know that when Devine advertised a building of good roads in its direction, for commercial reasons. Devine people are trying to use their road money, as far as possible, to benefit the people of the community, the largest center being in the town of Devine, but we used \$6,000 or more of our much needed money to help build a bridge, on the Hondo road, and we mention this fact, in arguing that trade relations, pro or con, should not interfere with our county development, and that we should all be fair with each other, which the Anvil Herald has not been, in referring to what the News said."

FORD NEARS OUTPUT OF 5,000
A DAY.

Dealers Call for 194.750 Cars Trucks and Tractors for June.

Ford Dealers in the United States have asked for a total of 194,750 Ford Cars, Trucks and Tractors to meet their June requirements, says a statement issued by the Ford Motor Company, Detroit, Michigan.

As a result, the estimated output for June has been boosted to 140,000 which is an increase of 10,000 over the present month, and, of course, will set up a new high record, in spite of the fact that the May output will show a substantial increase over the previous highest month.

Ford sales have been constantly increasing since the first of the year, the demand growing during the past two months faster than it has been possible to increase production.

Monday, May 16th, brought forth a new record of cars built for one day, the figures reaching 4878 at the close of the day's work. This was an increase of 16 over May 15th, when the previous high mark was established.

On May 18th, the six millionth Ford Motor was assembled. Number five million came off the line May 28th, 1921.

Ford officials state that every attempt is being made to build a sufficient number of cars and trucks to fill the retail requirements of their 8,000 dealers.

That Dull Aching

From the Devine News.
Mrs. J. H. Ney and little son of D'Hanis visited her parents here this week. Mr. and Mrs. E. J. Balmos.

M. A. Keller is attending Federal Court in San Antonio.

Quite an electric storm prevailed at Devine Monday night, again, but there was very little rain in town. Up to Tuesday noon only about half an inch of rain had fallen in town, ten days, and crops are growing better. Some onions are still being harvested, but it is estimated that about one-half the crop, or fifty cars, have been lost. There is one field of 40 acres of fine onions, when the rain started, that have never been touched, and thousands of crates have been poured out in the fields, after being graded. Trucks might make it pay hauling these onions to points outside the belt, where they are perhaps retailing at 5 and 6 cents.

Mr. and Mrs. E. A. Schott spent Sunday in Hondo with his sister, Mrs. Denken. Eddie says crops are six weeks ahead here, of the crops up there.

Dr. Linsecum of East Texas was here this week, the guest of his cousins, Rev. and Mrs. Bledsoe, and while there visited Yancey with a view to locating there and practicing medicine. He wants only a light practice, locating his family in a farming community, and has decided that Yancey is the place for him. We understand that he returned Monday to Yancey, with a view to locating.

M. A. Keller reports selling 40 bales of cotton this week for J. W. Bendele, Henry Bendele, Joe Weiss and Ed Ellinger, all fairly good grade and bringing a good price.

Mr. J. M. Coker has lost two Jersey milk cows in the past two or three weeks, following dipping dates. They appeared to be poisoned, or burned in mouth and throat, we are informed.

Lou E. Heath and Earl Boon of Hondo were here Thursday.

Albert Keller, Will Duncan and others coming in from Black Creek country, report a big rain Monday night over that way and back on the Hondo.

Geo. W. Hester visited the Somerset oil fields one day the past week, also exploring the Jack Oak section east of town, in which he and other Deviners are interested in having a well sunk. He was told that the Turpe well would probably be a dry hole. The Witherspoon gas well, however, on the Texas Caruthers lease, is considered a very valuable well, with a million feet of gas per day. The gas can be used as fuel in drilling other wells. It could be piped to Devine, if we don't strike a better one closer.

Frank Killough and wife of Marfa are visiting their parents at Devine and Hondo, where her people live.

Hon. John T. Briscoe is campaigning in the Rio Grande Valley this week. He was accompanied to Harlingen by his mother, Mrs. Susie Briscoe, Misses Minnie and Stella Briscoe and Miss Ruth Whitfield, who will visit Mrs. V. P. Dubose and other relatives and friends in the Valley for a few days.

Henry Bendele was in town Friday and says the road from Shook Corner to his place, about three miles, needs work badly, but he wants to wait until it can be widened. Says it is too narrow to keep up. He says

Don't worry and complain about a bad back. Get rid of it! For weak kidneys, lame and achy backs, your neighbors recommend Doan's Kidney Pills. Ask your neighbor!

F. H. Bohlen, proprietor of a repair shop, Hondo, says: "I always use Doan's Kidney Pills when my back bothers me and they never fail to help me. My back ached and I had a dull pain in my kidneys. I was often dizzy and black specks appeared before my eyes. My kidneys acted irregularly and the secretions were highly colored and burned in passage. I used Doan's Kidney Pills and they cured the attack. My back is now as strong as iron and my kidneys act regularly. I think the world of Doan's Kidney Pills."

Three Things Paint Must Do

- First—It must cover the surface, be true to shade and not fade.
- Second—Resist changes of temperature without cracking.
- Third—Stand the sun without blistering, chalking or peeling; Endure, last and satisfy.

All these qualities plus economy will be secured if you wisely give your preference to

Bradley & Vrooman Base and Tinter Paint

It is "live" fresh paint that spreads most easily and covers the most surface, gallon for gallon.

It possesses every good quality that state "dead" paint lacks. Every drop is usable. There is no waste from hardening or setting in the package.

The colors are bright and glowing and it has the stamina and properties that give the greatest paint protection at a minimum cost.

Paint Doesn't Cost Money —It Saves It!

Unless your home is protected inside and outside by repainting at least once every four years, you will lose in repairs and lessened value, from five to ten times what the paint and labor would cost.

"Save the surface and you save all."

FUNDAMENTAL REVELATION
in
DRAMATIC SYMBOL.

By Rev. J. T. Horger.

II.
"The Creation, Probation and Fall
of Man."

It is evident, by the word of God,
that this world was created for a
place of probation for man, and that
material things were made to typify
and symbolize spiritual things. Rom.
1:20 tells us that "The invisible
things of Him, from the creation of
the world are clearly seen, being un-
derstood by the things that are made,
even His Eternal Godhead." That is,
we obtain an understanding of the
invisible, spiritual things pertaining
to the salvation of a lost world by a
careful study of the visible, materi-
al things of this world, seeking out
and applying the analogy. It is also
evident that God anticipated the
fall of man and redemption of the
believer, by way of a SECOND CRE-
ATION through Christ before the
first effort was put forth to form this
terrestrial sphere. Verily, Jesus stood
as a Lamb slain for sin from before
the foundation of the world. In
Gen. 1 to 3, we read: "In the begin-
ning God created the Heaven and the
earth. And the earth was with-
out form, and void; and darkness was
upon the face of the deep. And the
Spirit of God moved upon the face
of the waters. And God said, 'let
there be light,' and there was light."
Now, in consideration of the above
scripture, let us see the method and
manner of the invisible re-creation
of the soul in Christ by the state-
ment of the creation of this world.

Here, we note that the earth first
appeared without FORM and VOID.
So is the heart of man, in infancy
and early youth. His character, with
reference to the re-creation in Jesus
Christ, is WITHOUT FORM and
VOID, that is, empty. And as it was
with the earth, so it is with his soul.
DARKNESS covers the face of the
great deep of his immortal being.
St. Paul, in Eph. 5:8, addressing the
regenerate, says: "Ye were sometimes
DARKNESS, but now are ye light in
the Lord." The word, DARKNESS, used
figuratively, signifies ignorance, sin,
and death. However, the Spirit of
God, at this critical moment, moved
upon the face of the waters, "and
God said, 'let there be light,' and
there was light." Just so, when the
Holy Spirit, dwelling in the hearts
of God's true children, brood over
the sin-cursed, darkened heart of the
dead in trespasses and in sins; and
the voice of God is heard in the pro-
clamation of the word of life by the
spirit-filled preacher, speaking as a
mouthpiece for Almighty God, say-
ing, "let there be light." And when
the soul truly believes and accept-
ingly trusts, in Jesus, the light and life
of the world, appears in that heart,
and new creation in Christ Jesus is
the result—"Marvel not, ye must be
born again."

Next, we note that in every step
of the creation of the things of the
earth, God said "let there be," and
there was. By the Fiat of His Eternal
Word, under the yearning im-
pulse and power of the Holy Ghost
He spoke and it was done.

Ps. 33:6—"By the WORD of the
Lord were the Heavens made; and
all the host of them by the BREATH
of His mouth."

Heb. 4:12,13—"The WORD of the
Lord is quick (life-giving) and pow-
erful, and sharper than any two-
edged sword, piercing even to the di-
viding asunder of soul and spirit, and
of the joints, and marrow, and is a
discerner of the thoughts, and intents
of the heart, etc."

In the 37th chapter of Ez., the
Prophet is represented as bringing
the dry bones of the valley to life
by saying in the name of Jehovah, "O
ye dry bones, hear ye the WORD of
the Lord." Let us hear St. John 1:1,
"In the beginning was the WORD
and the WORD was with God and
the WORD was God." Third, "All
things were made by Him, the WORD,
and without Him, the WORD, was
not anything made that was made."

Just here, let me say that the teach-
ing and proclamation by WORD,
from the Professor's Chair, and from
public platform, and the legislative
halls, the busy press and the sacred
pulpits of the world is the avenue
through which flow the potent forces
that generate, bring forth and es-
tablish the Powers that form the cus-

toms, moods and manners, laws, rules
and regulations that move and govern
the nations of the earth. Truly,
God's WORD, spoken or written, by
Jehovah, himself, by angels or
prophets and God-called and Spirit-
anointed men and women is the power
of God unto salvation to every soul
that believes.

In Gen. 1:26 and 27, we are told
that "God created man in his own
image" * * * "in his own likeness."
Now, in the process of revelation,
God is clearly manifest as THREE
persons in ONE, namely, God the
Father, God the Son, and Holy
Ghost. These THREE constituting
the ONE, only true and living God.
Waiving the many other features
found in the Godhead and the man-
hood, we want to note the peculiar
trine principles wrought in man, as
evidences of the fact that he is truly
in the image and likeness of the
Trine God.

We are conscious of the fact that
we wrote of the trinity of man in a
preceding article, but we have
more to say on this subject, because
of its fundamental profoundness and
indispensable importance in the right
understanding of the plan and process
of the redemption of the soul, the
only thing worth our unlimited in-
terest and constant consideration in
this world. Therefore, we proceed
to note that in the study of the Phys-
iology of man, we are told that the
skin that covers his body is THREE-
FOLD, and that his brain is in
THREE distinct lobes constituting
the whole of just one intellect. Other
parts of his body, not to be mentioned
here, are among the most infallible,
instructive and convincing evidences
of the TRIUNE creature being in the
image of the TRIUNE creator, who
indued man with re-creative powers
symbolic of the recreative powers of
the TRIUNE God, who begets us
unto everlasting life through Jesus
—the living Word—by the conduct-
ing, injecting and executing person
and power of the Holy Ghost. God
the Father, God the Son, and God
the Holy Ghost, re-creating man by
way of a begetal by the Word. But
leaving the minutia of man's body,
and viewing him more comprehensiv-
ely, we see him as physical being, hav-
ing a body that comprehends the en-
tire manhood, corresponding to God
the Father, who also comprehends
the entire Godhead.

A second view easily reveals that
man is a metaphysical creature, hav-
ing an intellect, a mind. That is, en-
dowed with thinking faculties. This
metaphysical part of man, which we
will call the second person of the
manhood, corresponds to the second
person in the Godhead, and may be
reckoned as semi-emotional, com-
pared to that of the heart; just as
the Spirit of Christ, Regenerating
Grace, is semi-spiritual, when com-
pared to the third person of the God-
head known as the Holy Ghost.

We also call the attention of the
reader to the beautiful and helpful
analogy between the second person
in the Godhead and that of the man-
hood. That is, mind. Namely, that
we can neither receive a message
from, nor convey a message to, nor in
any way approach into or obtain
spiritual fellowship with God except
by and through Jesus Christ, the sec-
ond person of the Godhead. Jesus
said, "No man cometh to the Father
but by Me." And we may truly say
that no one can possibly obtain the
Gift of the Holy Ghost, the third
person of the Godhead, except by
and through the second person of the
Godhead. Not only must we accept
Him as a sacrifice for sins, but also
we must receive His Spirit, Regener-
ating Grace, be born again, before
we can possibly approach unto and
receive the third person in the entire
sanctification of the soul. Even
so, if we would approach our fellow
man in a proper and effective man-
ner, and hold sweet and profitable
social intercourse with him, it must
be done through the intellect, or the
mind, the second person of manhood.

Now, as a third and last consid-
eration of the constitutional nature of
man, we look down into the deepest
and richest part of his being; and be-
hold, the physical, soul-ological, spiri-
tual realm of immortal man created
in the image of God, His Maker. This
department is known in scripture as
the heart. This third person, so to
speak, of the manhood, corresponds
to the third person in the Godhead.
The analogy between the two is clear,
strong and convincing. Just as the
third person of the Godhead is the
richest in emotional nature, in love,
joy, peace and Holy Power, so the
heart of man is the richest and most
emotional department of our being,
and is the citadel of the soul, receiv-
ing, generating and sending forth a
foundation of life, love, joy and
gladness, if filled with God-inspired
righteousness, or, if filled with sa-
tanic venom, streams of corruption,
sin and death. "Keep thy heart with
all diligence, for out of it are the
issues of life." Again, "As a man
thinketh in his heart, so is he." And
Jesus said, "From the abundance of
the heart the mouth speaketh." Veri-
ly, all this is an all-important funda-

mental revelation, namely, that man
is truly made in the Trine image of
his Creator, and to be redeemed by
a TRIUNE process of salvation. In
Gen. 2:21 we read that "God caused
a deep sleep to fall upon Adam, and
God opened up his side and took a
rib therefrom, out of which God
made a woman, who was bone of
Adam's bone and flesh of Adam's
flesh, and ordained of God to be a
help-meet for Adam." St. Paul says
she is the glory of man; that is, in
the image of man, a type of humanity
and the church of God, and the chief
object of man's earthly affections.
According to the consecutive records
of scripture, the man was placed on
probation in the Garden BEFORE
the woman was taken from his side.
But in order to consider the creation
of woman, in this article, next in
order with the creation of man, we
therefore come now to speak of the
peculiar facts connected with her crea-
tion, and their symbolic significance
relative to the wonderful plan of re-
demption through Christ.

But first, we want to call atten-
tion to a fundamental fact, which
we hope the reader will never lose
sight of from Time to Eternity;
namely, that man was not only cre-
ated in the image of the Trine God,
but in a particular sense, he is a type
of Jesus Christ, and the woman was
created to be a type of the Church,
the Bride and Wife of Christ. There-
fore, as it was ordained by the de-
terminate council and Will of God
that Jesus Christ should come to
earth, and pass through a state of
probation and then to the Cross,
there to die, and have the Roman
soldiers thrust the spear into His
side from which came out both
BLOOD and WATER. And that
through the virtue of these elements
taken from the side of Christ, God
Almighty, by the moving of the Holy
Spirit and the proclamation of the
everlasting Gospel, is now forming
and gathering from the four winds
of the earth the spotless and glorious
Bride of Jesus Christ, of which Eve
was a God-given type. Therefore, in
order to symbolize the above spiritual
truths, it was meet that Adam, the
first type of Christ, should first be
put in the Garden on probation, and
then as Christ was to be put to death
on the Cross, even so did God cause
a great sleep—a symbol of death—
to fall upon Adam; and just as Jesus
Christ was to have His side opened
by the soldiers' spears, even so God
opened the side of Adam; and in like
manner, as God had determined
from before the foundation of the
world, that out of the sacrificial body
of Jesus Christ should be taken the
spiritual material of which the Bride
and Wife, the Church, of His Son,
should be made, did God take from
the wounded side of the first Adam
a rib and formed a woman and
brought her to Adam and Adam said,
"This is now bone of my bone, and
flesh of my flesh," thus setting forth
the immutable fact that we, who
would be saved from sin, death, hell
and eternal woe, and become part of
the Church, the Bride and Wife of
Jesus Christ, must so partake of
Christ as to be born of the Spirit,
and be so transformed by the renew-
ing of the Holy Ghost, that spiritual-
ly speaking, we shall be BONE of
His BONE, FLESH of His FLESH.
Just as Christ and the Church, from
Eternity was to be ONE, even so did
God declare that man and wife, the
types of Christ and the Church,
should be ONE. See Gen. 2:20 to 24.
And as to man and wife being the
types of Christ and the Church, see
Eph. 5:23 to 32, part of which reads,
"For the husband is the head of the
wife, even as Christ is the head of
the Church." Therefore, as the
Church is subject unto Christ, so let
the wife be subject unto her hus-
band in every thing.

Husbands, love your wives, even
as Christ also loved the Church, and
gave Himself for it, that He might
sanctify and cleanse it by the washing
of water, by the Word, that He might
present it to Himself a glorious
Church, not having spot or wrinkle,
or any such thing; but that it should
be Holy and without blemish. "For
we"—true Christians—"are mem-
bers of His body, of His flesh, and
of His bone." "This is a great mys-
tery; but I speak of Christ and the
Church." Please notice that Jesus
gave Himself for her—the true
Church—that she might be SANCTI-
FIED, CLEANSED, and be HOLY;
without SPOT or WRINKLE, a GLO-
RIOUS Church.

It means something to be a real
Christian in this sin-cursed, devil-
ridden, hell-bound, un-Godly world.
But let us not forget the central pur-
pose of these articles, namely, Fun-
damental Principles of Redeeming
Love, set forth in the Bible in Sym-
bolic Drama. But this article, cover-
ing only the creation of the world,
man and his help-meet, has grown
too long. We close, to write of
man's probation and fall in our next.
